

# Queens County Dental Society

Virtually via Zoom 8am-5pm

## **“Minimally-Invasive Rehabilitation, using Supra-gingival Dentistry”**

**Course Description:** Every practice has 5% to 15% of patients who are missing multiple teeth and need full mouth rehabilitation but cannot afford it. Learn a practical technique to treat large cases in multiple stages, making it affordable to almost every patient. In this practical lecture, Dr. Jose Ruiz will offer a more real world approach to treating these patients using direct composite, adhesive dentistry and limited implants. ***Step by step techniques, and much, much more...***

## **“Preventing Medical Emergencies- Keeping It Simple and Easy!”**

**Course Description:** Assessing and managing your patient’s stress and having systems in place to diminish stress are the best approaches to preventing a medical emergency in the dental office. Dr. Anthony Charles Caputo, an expert spokesperson on anesthesia for the American Dental Association, along with Dr. Daniel J. Klemmedson, President of the American Dental Association, an Oral & Maxillofacial Surgeon with an MD, DDS degree, will discuss the areas which are considered vital to a proper understanding of emergency medicine: prevention, preparation, recognition and management.

## **“Diagnosis and Management of Oral Mucosal Diseases: What Every Dentist Should Know”**

**Course Objectives:** A number of diseases that can occur on the skin and other areas of the body can also occur in the oral cavity, either exclusively or in association with extra-oral involvement. In this presentation by Dr. Sonal Shah, a board-certified oral and maxillofacial pathologist, the audience will gain an appreciation for these oral conditions, along with their diagnosis and management and also
